

100Mbps RJ45 Ethernet SFP Optical Module

Overview

Our 100BASE-TX Copper SFP transceiver delivers Fast Ethernet connectivity over existing copper cabling infrastructure. Supporting data rates of 10/100 Mbps over distances up to 100m using Cat5 or better cabling, this module features standard RJ45 interface for seamless integration. a full list of compatible AMG switches and media converter models. If you are unsure please check with the AMG Technical Services team before ordering to ensure compatibility with your chosen SFP capable c Monitori x 14 x Rating Installation W p. The units are compatible with most 100BASE-X SFP ports on Ethernet switches and media converters¹ and feature. The Cisco ® 100BASE-X Small Form-Factor Pluggable (SFP) device (Figure 1) is a hot-swappable input/output device that plugs into Fast Ethernet ports, dual-rate Fast/Gigabit Ethernet ports, or Gigabit Ethernet ports of a Cisco switch or router, linking the port with the fiber cabling network. While Gigabit and higher-speed optics dominate modern data centers, many control systems, surveillance networks, transportation infrastructure, and. Cisco offers a range of Fast Ethernet SFP Interface Converters. The product portfolio includes 100BASE-FX, 100BASE-LX, and 100BASE-BX SFPs. 100BASE-FX: SFP operates on ordinary multi-mode fiber optic link spans of up to 2km in length.
