

110idc network patch panel

Overview

Protect your network lines from EMI/RFI interference with L-com's shielded Category 6 patch panel. Fully shielded jacks and enclosed IDC terminals gives maximum protection for connected cables. With industry standard 110 IDC blocks, the installation is fast and easy. ICC's 110-Type patch panels are engineered for superior performance in any structured cabling environment. Available in configurations ranging from 24 to 48 ports with options for 1 RMS and 2 RMS rack space, these patch panels accommodate both voice and data applications. These panels offer 110-Type IDC termination for enhanced installation ease and wire retention, and feature a corrosion-resistant design with 50 μ " gold. Check each product page for other buying options. No more cumbersome trial and error port search with tone generator and. [See More] 48 Port CAT5E 110 Patch. HIGH-PERFORMANCE CONNECTIVITY: Wall-mounted CAT5e component-rated fixed patch panel with front access to RJ-45 ports and 110-Type connectors, which allow quick moves, adds, and changes (MACs), delivering excellent performance for data networks requiring maximum speed and bandwidth.
