

200kWh intelligent energy storage cabinet for cloud computing use

Overview

This all-in-one ESS integrates a high-performance PCS, LFP battery modules, intelligent BMS, and a cloud-based EMS to provide reliable, safe, and efficient energy storage. Our 100kW/200kWh Commercial & Industrial Energy Storage Cabinet is now available from European stock, enabling fast delivery and rapid deployment for factories, commercial buildings, data centers, EV charging stations, and microgrid applications. It combines intelligent AI-based energy management, high efficiency and robust construction to deliver reliability and flexible. The OASIS A200 is a versatile energy storage solution designed for seamless integration with photovoltaic systems and third-party hybrid inverters. Ideal for peak shaving. Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands. BSLBATT Commercial solar battery. Our 200kWh battery bank is designed to meet the energy-demanding requirements of commercial and industrial areas.
