

AI Server List

AI Overview

Leading AI server platforms include Dell, HPE, Lenovo, Huawei, IBM, and specialized on-prem and cloud AI infrastructure providers. Top AI Server Companies The global AI server market is dominated by several major players offering high-performance hardware optimized for AI workloads:

- Dell Inc. (US):** Offers PowerEdge servers with NVIDIA GPU integration, supporting AI/ML workloads and enterprise applications. Dell collaborates with Red Hat to optimize AI deployment on RHEL AI.
- Hewlett Packard Enterprise (HPE, US):** Provides ProLiant DL145 Gen11 servers and HPC & AI systems, designed for edge and data center AI workloads.
- Lenovo (Hong Kong):** Supplies AI-optimized servers for enterprise and cloud environments, focusing on performance and scalability.
- Huawei Technologies (China):** Offers AI servers with high-density GPU configurations for large-scale AI training and inference.
- IBM (US):** Delivers AI-ready servers and integrated systems for AI, analytics, and HPC applications.

On-Prem AI Infrastructure Platforms For organizations seeking on-premises AI solutions, several platforms provide full-stack AI capabilities:

- Mistral AI:** Open-source, customizable AI solutions for on-prem, cloud, and edge deployments, including multilingual AI assistants and developer tools.
- Domino:** Enterprise AI platform supporting the full AI lifecycle, from data exploration to deployment, with hybrid and multi-cloud orchestration, governance, and autoscaling.

Other notable on-prem platforms include H2O.ai, DataRobot, and Pachyderm, which provide AI model management, workflow automation, and scalable compute resources.

Cloud-Based AI Platforms Many organizations leverage cloud AI providers to avoid managing physical servers:

- OpenAI, Anthropic, Llama:** Offer foundation models and inference services for AI agents and generative AI applications.
- DigitalOcean AI Cloud:** Provides on-demand GPU clusters, pre-trained model serving, and orchestration for AI workloads.
- AWS, Microsoft Azure, Google Cloud AI:** Deliver scalable AI infrastructure with GPU/TPU support, managed...

Global AI Optical Transceiver Market to Reach US\$26 Billion in 2026 ...

TrendForce's latest research indicates that the global market for AI-focused optical transceivers has entered a phase of rapid growth, with market size projected to expand from

Agentic AI Drives Structural Expansion in Memory Demand, Global

The shift in AI development from large-scale model training toward inference-centric Agentic AI applications is driving a structural expansion in memory demand, according to

Complete Crawler List For AI User-Agents [Dec 2025]

Complete Crawler List For AI User-Agents [Dec 2025] Use server logs, user agent strings, and IP verification to manage GPT, Claude, Gemini, and more while protecting bandwidth and

SAP AI Agent Hub | AI Governance and Agent Management System

SAP AI Agent Hub is a vendor-agnostic command center that provides a single entry point for the discovery and governance of AI agents, large language models (LLMs), and Model Context Protocol

AI Server Companies

Dell Inc. (US), Hewlett Packard Enterprise Development LP (US), Lenovo (Hong Kong), Huawei Technologies Co., Ltd. (China), and IBM (US) are the major players in the AI server market.

Top AI Servers Companies for High-Performance Computing in 2025

Discover leading AI servers companies offering cutting-edge solutions for machine learning and deep learning. Find high-performance, scalable systems optimized for AI workloads.

AI Server Manufacturers List: Top Global Suppliers & Products 2025

Discover the ultimate AI server manufacturers list featuring verified suppliers like Inspur and Dell. Need high-performance computing solutions? Compare specs, prices, and customization

Higgsfield MCP | AI Image & Video Generation for Any Agent

Add the Higgsfield MCP server to Claude, OpenClaw, Hermes Agent, NemoClaw, or any MCP-compatible client. 30+ models for image and video generation, no API key required.

AI Server Companies Driving AI Innovation in 2025

These companies design, manufacture, and operate AI-optimized servers tailored for deep learning, large-scale AI training, and enterprise AI workloads—whether on-premise or in the cloud.

BIS Revises Export Review Policy for Advanced AI

The licensing review policy has shifted from a presumption of denial to case-by-case licensing with strict conditions. This new export policy occurred

Awesome MCP Servers List (70+) — Live-Tested Catalog for 2026

The awesome MCP servers list you can actually test online. 70+ curated Model Context Protocol servers — Supabase, GitHub, Stripe, Notion, Figma, Linear, Slack, Sentry, Atlassian,

Article 6: Classification rules for high-risk AI systems | AI Act ...

An AI system is considered high-risk under the AI Act if it meets one of these criteria: (i) it serves as a safety component or is a product covered by specific EU laws in Annex I, and it must pass a third
