

Albanian Manufacturer of Optical Cables for Smart Buildings

AI Overview

Albaelettrica and Electron Albania are key Albanian manufacturers and suppliers of optical cables suitable for smart building applications. Key Manufacturers and Suppliers Albaelettrica offers a wide range of products including optical fibers, LAN cables, phone systems, and RACK panels, supporting the development of smart building networks and enterprise communication systems. Their solutions are designed to enhance connectivity and integrate seamlessly with modern building automation systems. Electron Albania specializes in fiber optic accessories and modules, such as SFP transceivers, optical splitters, and single-mode fiber cables, which are essential for high-speed data transmission in smart buildings. Their products comply with international standards and support long-distance connections, making them suitable for both residential and commercial smart building projects. IMPACT provides turnkey electrical and electronic solutions, including fiber optic infrastructure, for smart buildings in Albania and Kosovo. They collaborate with over 40 international manufacturers to ensure high-quality implementations for lighting, climate control, security, and networking systems. Smart Building Albania focuses on home and business automation, integrating networking, lighting, audio/video distribution, and security systems. While they primarily provide integration services, they work with global manufacturers of optical and networking products, making them a valuable partner for smart building projects. Additional Providers Other telecommunications and internet service providers like Digicom, Vivo Communications, and Neofone offer fiber optic internet services and infrastructure solutions that can support smart building networks. These companies provide high-speed connectivity and may supply optical cables as part of their service packages....
