

Argentina wiring unit 4 cores

AI Overview

For Argentina, 4-core wiring units should use Type I plugs, comply with IRAM 2073 standards, and support 220–250V AC at 50 Hz. Plug and Socket Standards Argentina uses the Type I plug system, similar to Australia, with three flat angled pins and a grounding pin. The standard voltage is 220–250V AC with a frequency of 50 Hz. Type I plugs are available in 10A and 20A ratings, and only IRAM-approved plugs may be used to ensure safety and compliance. The line and neutral pins are longer than in Australia, and Argentina has reversed polarity, so imported plugs from other countries may not be compatible. 4-Core Wiring Units A 4-core cable typically includes live, neutral, earth, and an additional conductor for specialized applications such as switched circuits or three-phase connections. These cables are available in custom lengths, colors, and shielding options to meet specific equipment requirements. They can be supplied with terminated ends (C13, C19, C7, C5, or C15 connectors) or unterminated for custom installation. Compliance and Safety All wiring units for Argentina should comply with IRAM standards and meet RoHS and REACH requirements for safety and environmental compliance. Custom assemblies can be configured for industrial, consumer electronics, medical, or telecom applications, ensuring compatibility with local power grids and plug types. Sourcing Options International Configurations: Offers custom and standard Argentina AC power cords with various connector options and lengths. Mouser Electronics: Stocks Argentina AC power cords with datasheets and pricing for immediate purchase. International Cord Sets (ICS): Provides IRAM-approved cords for OEMs and manufacturers, including custom assemblies for South American markets. Morvan Trading: Supplies a wide range of Argentina plugs and cords, including 10A and 20A options, with next-day delivery and bulk OEM availability. When selecting a 4-core wiring unit for Argentina, ensure the plug type, current rating, and IRAM certificatio...
