

Cost of fabricating a power distribution box

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. Available in various sizes with high-quality materials and professional finishing for reliable performance. Custom power distribution boxes are engineered to meet your specific power. For over 45 years, Applied Engineering has enabled the success of our clients by providing cost effective electromechanical contract manufacturing for custom engineered power distribution units (PDU's) and control panels. Global Sources is your trusted destination for.
