

Fiber Optic Switch S5560

Overview

The S556030FEI 10G SFP switch enables seamless 10G upgrades from legacy 1G networks by supporting mixed traffic, offering 144 Gbps non-blocking bandwidth, and maintaining compatibility with existing fiber infrastructure without hardware replacement. Is the S5560-30F-EI the right backbone for. H3C S5560X-EI is a series of intelligent scalable GE switches with outstanding performance, high port density, and ease of installation. Seamless wired. To seek help, Please Contact Us. Recommend! Stable version, widely used by most customers. Page 2 The information in this document is subject to change without notice. Featuring 24 10/100/1000BASE-T Ethernet ports, 4 10G/1G BASE-X SFP+ ports, and 2 40G QSFP+ ports, this switch provides extensive connectivity options and robust.
