

High and Low Voltage Transformer Complete Sets of Equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. The cable connectors in the tap boxes feature high-grade insulation. These products are highly integrated, compact in size, structurally compact, safe and reliable in operation, easy to maintain, and portable. In distribution systems, they can be used in ring network distribution systems as well as in dual power supply or radial terminal distribution systems. Beierbian transformer group is originated from Beijing Beierbian Transformer Group Co., with a registered capital of 218 million. The. With 20+ years of combined experience working on and with transformers and switchgear, the High to Low Voltage team helps businesses buy, repair, and rent the equipment they need to stay operational when it matters most. Custom-built, in-stock inventory, or quick-ship transformers.
