

How is the fiber optic cable export situation

AI Overview

Global fiber optic cable exports are dominated by Vietnam, China, and Ukraine, with total shipments slightly declining by 3% year-on-year, while major deals like HFCL's \$72.96 million contract highlight ongoing international demand. Global Export Trends Between July 2024 and June 2025, the world exported 196,020 fiber optic shipments through 16,980 verified exporters to 15,040 buyers, marking a 3% decline compared to the previous year (Volza). The leading exporters were Vietnam (187,233 shipments), China (142,095), and Ukraine (76,626), while the top importers included Ukraine, the United States, and Hong Kong. In terms of trade value, global fiber optic cable trade reached \$9.28 billion in 2024, slightly down from \$9.3 billion in 2023, with China (\$2.52B), Mexico (\$1.65B), and the United States (\$1.21B) as the largest exporters. Key Exporters and Importers Vietnam and China dominate in shipment volume, reflecting strong manufacturing capacity and competitive pricing. United States and Mexico are significant importers by trade value, indicating high domestic demand for fiber infrastructure. Ukraine plays a dual role as both a major exporter and importer, reflecting regional supply chain dynamics. Notable Corporate Deals Indian telecom equipment manufacturer HFCL secured a \$72.96 million (₹656.10 crore) export order to supply optical fiber cables to an international customer, with deliveries scheduled by November 2026. This deal underscores global confidence in HFCL's manufacturing and technological capabilities. HFCL's involvement in large-scale domestic projects like BharatNet Phase 3 also positions it as a competitive player in both domestic and international fiber optic markets. Market Insights and Supply Chain Considerations Fiber to the Home (FTTH) and Fiber to the X (FTTX) deployments are driving demand for high-quality fiber optic cables...
