

How much does a 3M 144-pin connector box cost

AI Overview

A 3M 144-pin connector typically costs around \$6.24 per unit when purchased in small quantities, with bulk pricing varying by supplier. Pricing Overview The cost of a 3M 144-pin connector depends on the supplier, quantity, and packaging. For example, an eBay listing for the MP2-S144-41M2-C-TG30 3M hard metric 144-position connector shows a price of \$6.24 per piece when purchased in a pack of five. Buying larger quantities or full boxes may reduce the per-unit cost, but prices can vary depending on the distributor and shipping options. Supplier Options eBay: Offers small packs or individual connectors, often in protective sleeves, with shipping costs calculated separately. DigiKey: Stocks 3M connectors and provides pricing and availability for immediate purchase, suitable for professional or bulk orders. Mouser Electronics: Offers a wide range of 3M headers and wire housings, including datasheets and pricing for different connector types. 3M Official Website: Lists PCB connectors and interconnect products, useful for checking specifications and authorized distributors. Considerations Quantity: Buying a full box or bulk pack usually lowers the per-unit cost. Shipping: Costs vary by location and shipping method. International shipping may increase total cost. Condition: Some listings may include connectors in protective sleeves or cut tape, which can affect pricing. For the most accurate pricing, it is recommended to check current listings on DigiKey, Mouser, or eBay, as prices fluctuate based on stock and demand.
