

How much does aluminum sheet for cable trays cost

Overview

Steel trays typically cost between \$10-\$30 per meter, while aluminum trays range from \$20-\$50 per meter. Custom or coated trays may have higher pricing. Why do cable tray prices fluctuate?

Raw material costs, demand, competition, and supply chain factors all impact pricing. For bulk orders or project pricing, the cost can be significantly lower. The following is an easy reference to the most popular materials in 2026: Pre-Galvanized (PG): It is the most. When planning a cabling infrastructure, aluminum cable trays offer a lightweight, corrosion-resistant solution that can simplify installation and maintenance. This guide examines current options and pricing considerations, helping buyers compare features, durability, and value across common. The price is based on standard length of the cable tray which is 2. We want to improve this website so we need your help.
