

How to make fusible fiber in stairwells

Overview

On the first piece of baking parchment, lay a fine layer of Angelina or Crystalline fusible fibres. You can use a range of colours, or just stick with one shade for the first layer. Ever wondered how to make your own fusible shapes?

Elayne shows us how — step by step! Ever wondered how to make your own fusible shapes?

Elayne shows us how — step by step! Join our online sewing network: play. biz It's all things sewing! Experience the difference of learning quilting. Get creative and make your own eye catching fabric and 3D accessories such as bags, cones and brooches that can be embellished and sewn together. Lay one on a heatproof surface ensuring it covers a large area. There are so many different products on the market today that the quilters are easily confused, and not sure what to buy or to use. While it remains hidden in the finished project, this remarkable material can transform your handmade items from "homemade-looking" to polished and professional. Whether you're a beginner or an experienced sewist, understanding.
