

Ireland Long-Span Cable Trays

AI Overview

Long-span cable trays in Ireland are typically constructed using steel or wire mesh ladder systems, designed for heavy-duty loads, optimal ventilation, and flexible installation over extended distances.

Types of Long-Span Cable Trays

- Steel Cable Ladders:** Ideal for heavy-duty power cables and long runs, steel ladders provide maximum support and ventilation. The long rung spacing allows full free-air rating of cables, preventing overheating and ensuring efficient current flow.
- Wire Mesh Basket Trays:** Lightweight and flexible, wire mesh trays are suitable for medium-duty applications. They allow excellent cable ventilation, reduce dirt accumulation, and can be easily cut and fitted onsite with minimal planning.
- Perforated Steel Trays:** These are U-shaped trays with perforated bottoms and folded sides, available in light, medium, and heavy-duty constructions. Perforations allow cooling and easy cable fixing using ties or clips.

Materials and Protection

- Hot-Dip Galvanised Steel:** Provides corrosion protection through a zinc coating, acting as a physical barrier and offering sacrificial protection at cut edges.
- Pre-Galvanised Steel:** Carbon steel sheet immersed in zinc before fabrication, suitable for indoor and less corrosive environments.
- Powder Coating:** Optional for aesthetic or additional corrosion resistance.

Installation Considerations

- Support Spacing:** Long-span trays require careful calculation of support intervals to prevent sagging. Steel ladders and heavy-duty trays allow spans of several meters depending on cable load.
- Connection Systems:** Modern systems like OBO GR-Magic® allow tool-free, fast connections, reducing installation time and labor costs while maintaining stability and safety.
- Flexibility:** Modular systems enable side-loading of cables and easy integration with existing infrastructure.
- Compliance:** Ensure all fasteners, brackets, and rods meet EN ISO standards for galvanisation and corrosion protection.

Suppliers and Solutions in Ireland

- Excel Electric:** Offers EZFIT steel cable trays and trunking systems, with options for light, medium, and heavy-d...
