

## Price of outdoor cable trays in China and Africa

### AI Overview

Outdoor cable trays in China typically range from \$10 to \$50 per meter depending on material and specifications, while prices in Africa vary due to import costs and local market conditions.

**Pricing in China**

In China, outdoor cable trays are available in various materials such as FRP (fiberglass reinforced plastic), steel, polymer composites, and epoxy resin trays. Typical price ranges are:

- FRP cable trays: \$15–\$40 per meter, favored for corrosion resistance and outdoor durability.
- Steel cable trays: \$10–\$30 per meter, often powder-coated for outdoor use.
- Composite or epoxy resin trays: \$20–\$50 per meter, used in highly corrosive or industrial environments.

Prices vary based on tray width, load capacity, perforation type, and customization. Bulk orders or factory-direct purchases can reduce costs significantly.

**Pricing Considerations in Africa**

In Africa, outdoor cable tray prices are generally higher than in China due to:

- Import duties and taxes
- Shipping and logistics costs
- Currency fluctuations
- Limited local manufacturing

As a result, imported FRP or steel trays from China may cost \$25–\$70 per meter, depending on the country and port of entry. Local suppliers may offer slightly lower prices for standard steel trays but often with limited material options and quality variations.

**Tips for Procurement**

- Compare multiple Chinese suppliers on platforms like Alibaba, Made-in-China, or Tradewheel to get competitive quotes.
- Consider bulk orders to reduce per-meter cost.
- Check material suitability for outdoor conditions, especially UV resistance and corrosion protection.
- Factor in shipping and customs when importing to African countries.

By evaluating material, supplier reliability, and shipping logistics, buyers can optimize costs while ensuring durability and compliance with local standards.
