

Price of outdoor socket boxes and distribution boxes

AI Overview

Outdoor distribution boxes with sockets typically range from \$20 to \$200+ depending on type, IP rating, and number of outlets. Typical Price Ranges

Basic wall-mounted outdoor sockets: Single or double Schuko sockets in IP54–IP66 enclosures usually cost \$20–\$50. These are suitable for garden or patio use and provide basic weatherproof protection (Toolstation).

Combination or construction site distribution boxes: Pre-wired boxes with multiple sockets, including 230 V Schuko and 16 A or 32 A CEE sockets, range from \$80–\$200. These are robust, impact-resistant, and suitable for indoor/outdoor use, often with IP44–IP66 protection (Amazon RoadEu).

High-end waterproof outdoor outlet boxes: Wall-mounted units with IP66 protection, lockable covers, and premium materials (ABS, copper) can cost \$50–\$120 per socket, depending on features like shockproof design and large wiring space (Amazon XINYIELE).

Floor or underground outdoor sockets: Industrial-grade floor boxes for outdoor installation (IP67) designed for yards, car parks, or marketplaces can exceed \$150–\$300+, depending on load capacity and walkable/driveable specifications (Flobo24).

Factors Affecting Price

- IP Rating:** Higher IP ratings (IP66–IP67) provide better protection against water and dust, increasing cost.
- Number and Type of Sockets:** More outlets or inclusion of high-power CEE sockets increases price.
- Material and Build Quality:** ABS, copper, and impact-resistant housings are more expensive but more durable.
- Additional Features:** Lockable covers, RCD protection, and smart control options can add to the cost.

Summary

For typical residential outdoor use, expect \$20–\$60 per socket in a weatherproof box. For construction or industrial applications with multiple high-power sockets, prices can rise to \$150–\$300+ per box. Always check the IP rating and socket type to ensure suitability for your outdo...
