

Singapore Stainless Steel Cable Tray Price List

AI Overview

Stainless steel cable trays in Singapore typically range from SGD 50 to SGD 200 per meter, depending on material grade, size, and duty rating.

Price Factors

Material Grade: Common stainless steel grades include SS304, SS316, and SS316L. SS316 and SS316L are more corrosion-resistant and generally cost more than SS304.

Tray Size: Widths range from 100mm to 400mm and heights from 50mm to 100mm or more. Larger trays with higher load capacities are priced higher.

Duty Rating: Light duty (13mm) is cheaper, medium duty (25mm) is mid-range, and heavy duty (50–100mm) is the most expensive.

Surface Finish: Options include electrolytic polishing, hot-dipped galvanizing, or powder coating. Stainless steel trays with polished finishes for harsh environments cost more.

Quantity and Supplier: Bulk orders often reduce per-meter cost. Suppliers in Singapore include RS Components, AE Hub, United U-Li Projects, Tradekey, and Wanco Electric.

Typical Price Range

SS304 Light Duty (100x50mm, 1.0–1.2mm thickness): SGD 50–80 per meter

SS304 Medium Duty (150x75mm, 1.2mm thickness): SGD 80–120 per meter

SS316/SS316L Heavy Duty (200x100mm, 1.5mm thickness): SGD 150–200 per meter

Additional Considerations

Compliance: Ensure trays meet IEC 61537, NEMA VE-1, or Singapore SS249 standards.

Environment: For corrosive or humid conditions, SS316 or SS316L is recommended.

Accessories: Covers, bends, and fittings may add to the total cost. For accurate pricing, it is recommended to contact suppliers directly with your project specifications, as prices vary based on tray dimensions, material, and order volume.
