

Terminal Box T02-SC

Overview

The 2 port surface mount fiber enclosure serves as termination point designed to joint drop cable and pigtail in home or office for wall mount or surface mount installation. Delivered empty or pre-loaded with any. DIN Rail Fiber optic terminal box is available for the distribution with ST adapter single-mode 24 core and terminal connection for various kinds of optical fiber systems, especially suitable for mini-network terminal distribution, in which the optical cables, patch cores, or pigtails are. Carrier-Grade Performance: Powered by YOFC fiber technology for ultra-low signal loss and high reliability. Multiple Adapter Support: Easily switch between SC simplex and LC duplex adapters to meet varying density needs. Advanced Splicing Tray: Includes a high-capacity tray with integrated fiber. CommScope offers a complete line of easy-to-use access terminals, copper and fiber splice closures, patch closures and accessories to speed deployment.
