

Wholesale Price List of Self-Supporting Optical Cables

AI Overview

Self-supporting optical cables (ADSS/SS) are available wholesale starting from approximately \$0.2 per unit, with bulk pricing and OEM customization options from verified suppliers.

Overview of Self-Supporting Optical Cables

Self-supporting optical cables, also known as ADSS (All-Dielectric Self-Supporting) cables, are designed for aerial installation without the need for additional support wires. They are widely used in telecommunications, power distribution, and networking projects due to their durability, high-speed data transmission, and resistance to environmental stress.

These cables can be single-mode (SMF) or multi-mode (MMF), with core counts ranging from a few fibers to over 144 fibers for large-scale deployments.

Wholesale Pricing

- Entry-level bulk units: Approximately \$0.2 per unit, suitable for large-volume orders.
- Factory-direct pricing: Available through OEM suppliers, which allows for custom specifications and bulk discounts.
- High-capacity or specialized cables: Prices vary depending on fiber type, core count, and environmental ratings (e.g., UV-resistant, armored, or direct-burial options).

Supplier Options

- Alibaba: Offers a wide range of self-supporting optical cables including GYTA53, OPGW, and SS Aerial Mini ADSS cables, with bulk purchase options and direct contact with manufacturers.
- Made-in-China: Provides access to OEM distributors for custom fiber specifications and competitive wholesale pricing.
- Global Sources: Features verified manufacturers from China, India, and Korea, offering factory prices for various fiber optic cable types.
- Specialized suppliers: Companies like OPELINK provide high-speed fiber optic cables for telecom, data centers, and industrial applications, with options for single-mode, multi-mode, and armored cables.

Procurement Tips

Request a detailed quote: Include fiber type, core count, length, and environmental rating to get accurate wholesale p...
